

Week 6 - Topic - Year 1

Moon Zoom! Space, Planets and Astronauts

Monday

Use the internet or books to find out about Yuri Gagarin (the first person to travel into space).

Write some facts about him.

Wednesday

Research the model of a solar system. Then choose a planet, for example, the earth and draw some of the features.

You can use a balloon and paint in different colours and create different textures.

Tuesday

Continue to use the internet to find out about other astronauts such as Neil Armstrong and Buzz Aldrin (the first men to land on the moon).

Discuss the job they do and what it is like to work in space.

Thursday

Add other features alongside your planet such as rings and moons if required.

Continue to use different colours and textures to complete your model.

**SOLAR
SYSTEM**

Friday

Gather and record data about the Moon and the other planets in our solar system. Use non-fiction books, the web and films.

Discuss interesting facts with your family.

Moon Zoom!
