LK: To plan a fantasy story

What is fantasy?

Fantasy means imagining things that are not real and are mystical. This can be magical creatures or superpowers. Your job is to plan a fantasy story. Your story must include your own imaginative and unreal characters, this could be a 3 headed dragon as your villain.

You will write your ideas and what the main parts of your story is.

Beginning: Introduce the characters and settings

Build Up: Build up your story. Talk about your characters more and where they belong.

Problem: Oh no! Something terrible has happened

Solution: Fix the problem!

Climax: Is there a happy ending?

Remember you are not writing your story, you are planning your story.
