LK: To develop our character description using positive and negative intent.

Now that you have described your characters, I want you to think about developing your descriptions with a positive and negative intent for each animal.

Develop your writing using the fantastics. I have done an example below.

*The ferocious lion had an enormous, bristly mane with sharp killer teeth. His saliva was dripping heavily as though he was ready to attack at any point. His skin was rough and thick like a doormat. His eyes were blood shot red, so frightening to watch it could scar you. His frown was deadly, and claws were ready to rip into his predators.*

Can you think of a way to describe the lion in a more positive way?
