LK: To plan an information text

## **The Cradle**

As a young miner in the Goldfields of Australia, you have just invented and amazing new piece of technology called the cradle. It is very important that the other miners in the settlement know about your invention and how to use it. The Governor has asked you to write an article about your invention and explain the purpose of the cradle and how to use it.

You are to plan how you will write about your invention and instructions on how to use it. What does your cradle look like? How does it work? Think about all these things.
