L.K: To describe a recent trip

Today, we are going to work on developing our abilities to describe accurately. You need to choose a recent trip to anywhere you like (could be the shops, school, the beach, holiday etc.) and describe it in as much detail as possible. This will need to be between a paragraph and two paragraphs and must have a high level of detail. You could think about including:

- What you ate?
- Where you went when you did get there?
- How you felt?
- Who went with you?
- Did you enjoy it? Why?
- How could you have made the trip even better?
- How you got there?

You need to make sure you are checking your work as you're writing it and that you have included as much detail as possible. Don't be worried about writing too much, that's a good thing!

Now you need to share your work with someone at home. It could be anyone you like, but you can either read your work to them or have them read it themselves. Ask them if you could improve it in any way. Could your spelling be better in places? Does your work make complete sense? Could you add more detail? Have you used complex words and punctuation?

When you've done this, you can EITHER rewrite your work to improve it OR you can edit it using a different colour. Today's work is very important as you will be assessing your own work and editing and improving- a VERY important skill that you all need to develop as you go through school!

I am more than happy to read your stories, so please email them to me if you want to!
