

Topic for week beginning 8th June

L.K: To research the Vikings

For Topic, I would like you to research and create a fact file about the Vikings. Specifically, you should include information of when they invaded Britain between the years of 793 and 1066.

The Vikings largely settled in the north of the country, but did occasionally come further south, so it is possible to see evidence of the Vikings in Birmingham! See if you can find any information about this if you can. You will need to include information such as:

- Who the Vikings were and how they travelled to Britain
- Why they travelled to Britain
- What the Vikings believed in and examples of Vikings gods and beliefs
- How they improved or reduced the quality of life for British people
- How Vikings lived in Britain and what they did whilst they were here

You should also include pictures/drawings in your work and maybe a diagram of a typical Viking warrior. This will make your fact file much more interesting and engaging to read.

Good luck and I hope to see lots of your work at WDV.Year4@oasiswoodview.org
