LK: To read a clock

Hello everybody! Miss Dattani here, I hope you are all safe and well.

Your task is differentiated two ways:

-Section A is suited for one star (blue and green)

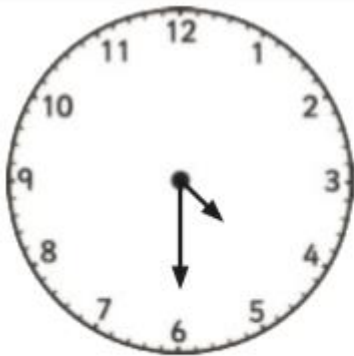

-Section B is suited for two and three star (yellow, orange and red table)

Today, you will write the time of each clockface. Draw the clock out and write the time next to it.

Section A-draw these clocks and write the time next to them. Write them in two formats. For example:

11:05am

Five minutes past eleven in the morning.

Section B

Use the same sheet as above. Complete the same task as section A, but then write every clock in 12 hour and 24 hour time.

For example 10:00pm is 22:00 in 24-hour time.
