LK: To convert 12-hour times to 24-hour times

Hello everybody! Miss Dattani here, I hope you are all safe and well.

Your task is differentiated two ways:

-Section A is suited for one star (blue and green)

-Section B is suited for two and three star (yellow, orange and red table)

-All 24-hour clocks have 4 digits. Even times in the morning have 4 digits, for example 1 am would be written 01:00, 2am would be written as 02:00 and so on.

-Midnight is written as 00:00 (it is a new day, so the time has restarted).

-24-hour times do not need am or pm written after them

-To change an afternoon time on a 12-hour clock to a 24-hour clock, simply add 12 to the hours.

$$10 + 12 = 22.$$

So 10:33 pm in 24-hour time is 22:33

-12:00pm does not change on the 24-hour clock

Section A- convert these 12-hour times to 24-hour times

- 1) 3:00am
- 2) 6:00am
- 3) 5:30am
- 4) 1:00pm
- 5) 3:30pm
- 6) 5:30pm
- 7) 8:00pm
- 8) 9:25pm
- 9) 10:00pm
- 10) 11:30pm

Section B - write these times in 24-hour

- 1) 1:00am
- 2) seven o'clock in the morning
- 3) quarter to seven in the morning
- 4) 1:00pm
- 5) twenty-five past six in the evening
- 6) midnight
- 7) twenty to nine in the evening
- 8) 11:55pm
- 9) thirteen minutes to seven in the evening
- 10) two minutes past four in the morning
