LK: To compare numbers with up to three decimal places

Section A is suitable for blue and green table

Section B is suitable for yellow, orange and red table

Today we will identify compare decimal numbers.

Example

Insert the correct symbol between the two numbers below <>

1.12 1.2

We can decide which one is larger by putting each number in place value columns.

Ones	.	1/10	1/100	1/1000
1	.	1	2	
1	.	2		

We start analysing the digits from left to right. You can see both numbers have a one in the ones, but in the tenths column, the 2 has more value than the 1, making that number larger already.

Answer: $1.12 < 1.2$

A

Copy and complete by writing $<$ or $>$ in the box.

1 3.5 3.7

6 7.8 7.18

2 4.26 4.6

7 9.42 9.24

3 6.6 6.11

8 1.13 1.3

4 9.88 8.99

9 5.66 6.05

5 3.45 4.53

10 2.75 2.8

B

Write $<$ or $>$ in each box.

1 0.144 0.411

6 0.061 0.16

2 0.5 0.49

7 0.734 0.674

3 0.993 0.939

8 0.376 1.38

4 0.417 0.47

9 0.88 0.808

5 2.55 0.258

10 0.626 0.662
