

Wednesday 20.05.2020

LK: To recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents.

Section A is suitable for blue and green table

Section B is suitable for yellow, orange and red table

Today we will identify the place value of decimals and write pictorial representations as fractions and decimals.

Example

What is the value of the underlined digit?

3.43

The 3 is in the tenths column so the value is 3 tenths or 0.3

Example

What is the value of the underlined digit?

57.89

The 9 is in the hundredths column so the value is 9 hundredths or 0.09

Section A

Write the value of the underlined digits

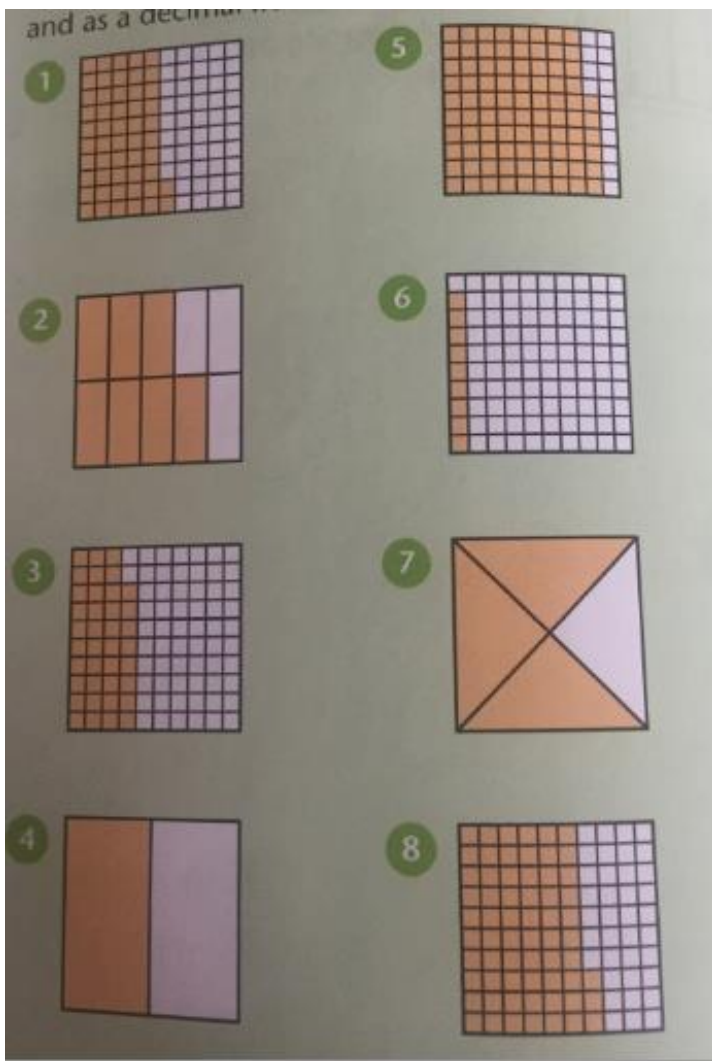

1. 4.76

2. 48.7

3. 26.19

4. 8.01

Write these representations as fractions and decimals

Section B

Write the value of the underlined digit

1. $8.8\underline{6}$

2. $2.40\underline{7}$

3. $\underline{3}0.71$

4. $0.\underline{1}5$

5. $1.86\underline{1}$

Write these representations as fractions and decimals

Challenge- identify the value of each letter
