

The Ultimate Secondary School Gadget

Sell, sell, sell!

Today, you will create your advert. You are the director/producer!

TV Advert

If you are filming your tv advert, think about what you want/don't want in the background of your video before you start.

Top tip: A bed sheet can make a useful plain background that blocks out anything behind it. (You could perhaps pin items to the sheet if you need, and are very careful).

Will you be a presenter on screen, or will you use pictures with a voice over? It is entirely up to you how you go about this - be as creative as you want!

Radio Jingle

Make sure you practise your jingle so that you can perform it without having to stop. Maybe you could include music, or use a musical instrument if you have something suitable.

If you have made a radio jingle, you will only need to record audio, so your background won't matter, although you will want quiet just while you are recording.

Send your creations in using Portfolios on Class Dojo.

We can't wait to see what you come up with!

Convince us to buy you gadget - anyone who does, gets 5 extra Dojo points!
