

# The Ultimate Secondary School Gadget

It's gadget time!!!

Today, we want you to draw a diagram of your gadget.

- \* Make sure all features are labelled, with short explanations so we know what they do, and how they work.
- \* You can also include text underneath, as in the Radio Mouth Brace 365 from Monday.

- \* If you get stuck, look at the Radio Mouth Brace from Monday to give you ideas as to how to structure your work, or for sentence ideas.

Tomorrow you will be planning your advertising campaign, so think about how you could use this labelled diagram/explanation as part of it.
