

Friday 12th June

Dear Future me...

Today you are going to write just one more letter, but this time to are writing to yourself five years in the future, after you have finished GCSEs and year 11.

What do you want to tell your future self?

What do you hope to have done/achieved? What interests do you hope you have worked hard at and improved? What hopes/dreams might have become a reality? What sort of person do you hope you have become?

You might also want to include details on how strange/different life is at the moment.

If you keep this pack safe, then you will be able to reread this letter in 5 years time and see how things have turned out, compared with what you hoped right now.
