

Tuesday 9th June

My class...

Today you are going to create a page for your booklet that will be a permanent reminder of your class. You might be able to remember everyone perfectly well now, but you will be amazed how this will become muddled as you get older, so this will be a lovely souvenir to keep forever.

On the next page there is a sheet that shows different frames into which you can draw or write in your class members.

You will be creating your own version, so you will need to think carefully before you start. Are you going to include only those children in your year 6 class, or will you include children who left in previous years? How many children will there be altogether? How many rows will you need to fit them all in? You might want to make a very quick rough plan to check that everyone will fit and that you have not forgotten anyone.

Spelling

Remember to login to <https://pages.sumdog.com/> using your Mymaths login to play spelling games.
