

Tuesday 16<sup>th</sup> June

### Moving to your new school ...

Today you will create a "Moving to your new school" page.  
(You can see an example layout on the next page.)

On this page, you will include:

- \* what you are looking forward to,
- \* what you feel nervous about,
- \* what you would like to know,
- \* what you think could help you,
- \* what you think will be different from primary school,
- \* how you feel about going.

You can always add to this page over the coming weeks if you think of more things.

### Email

When you have done this, you might realise that there are some important things you need to know.

Yesterday, you found some of your school details including the school email, the name of the head of year 7 and hopefully their email.

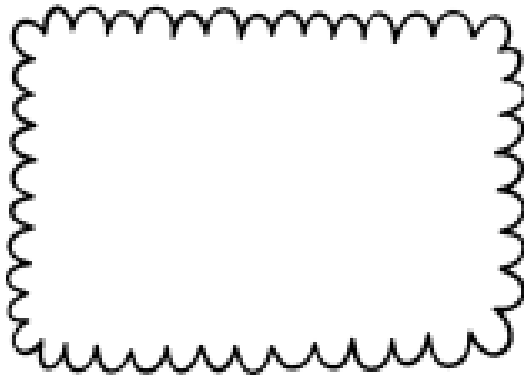

Why not email the school/ head of year 7 to ask your questions? They will be very happy to hear from you, answer your questions and ensure you feel ready for September.

Remember you can contact them again should you think of more things you would like to know. We will continue to look at more areas during this week and next and you might then have further questions.

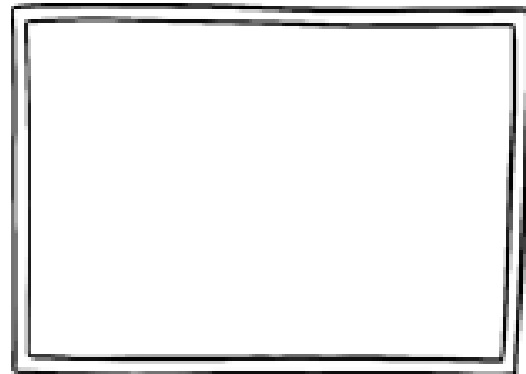

# Moving to Your New School

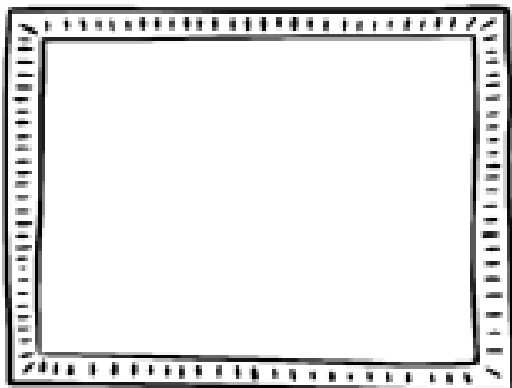

I am most looking forward to...

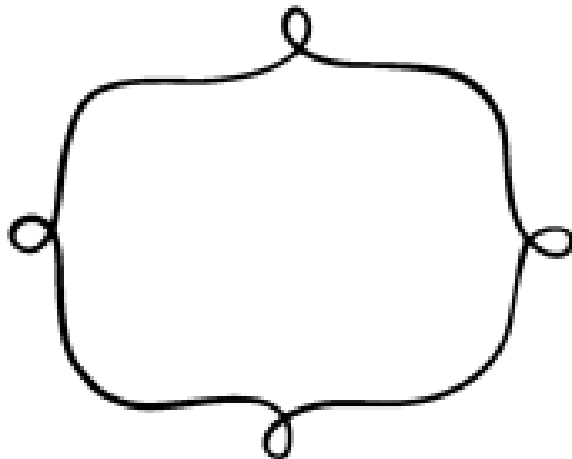

I feel a bit nervous about...

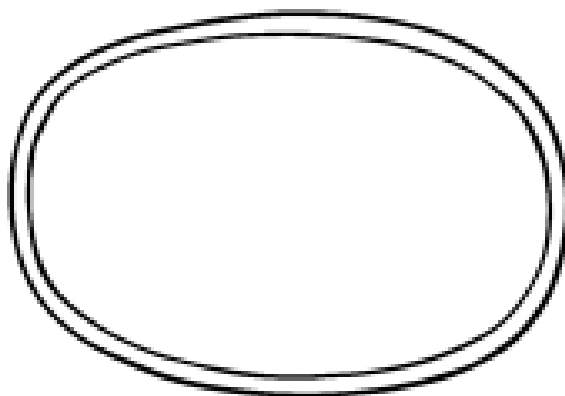

I would like to know...

Some things that could help me are...

Some things that will be different from primary school are...

In one word I feel...
